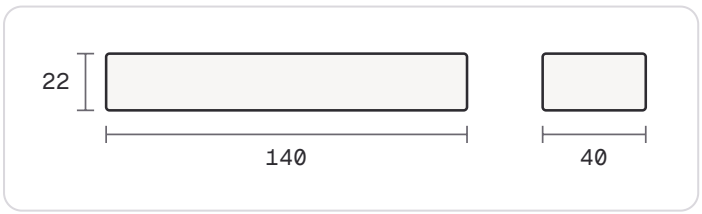
SMART CONTROL
Bluetooth control.

SMART track system remote control. Allows to change the brightness and color temperature of the lights on the track system. Using the remote control, you can create up to 4 lighting groups and control them independently of each other. Powered by two AAA batteries.

OVERALL DIMENSIONS, MM



PART OF DENKIRS SMART

220 V, no driver

The track connects straight to the mains. No driver to size, no transformer to hide.

Four installation types

Surface, suspended, recessed in plasterboard — or SMART ONE for stretch ceilings.

Pairing, not wiring

Remotes, wall panels and the app connect over Bluetooth, Wi-Fi or Zigbee — no control cables to run.
