POWER 10 W	VOLTAGE 220 V
PROTECTION IP65	DIMENSIONS 90 × 31 mm
FINISH White	WARRANTY 3 years
EAN 3831166000286	

Port - a series of built-in waterproof lamps made of polymer for a replaceable lamp. The design of the fixtures is as neutral and versatile as possible. Models are equipped with a large-diameter matte diffuser that perfectly scatters light in the space of the room. The series is ideal for wet areas. The lamp is not included. For this series, we recommend ultra-thin SLIM LED modules as a light source, the installation depth is only 35 mm.
