

Beamer Themes — Full List

 By Admin August 9, 2021

In previous lessons, we used the following beamer themes: [AnnArbor](#), [Warsaw](#), [CambridgeUS](#), [Frankfurt](#), [Madrid](#), and [Copenhagen](#). In this lesson, we will present a full list of standard beamer themes.

Inbuilt themes in beamer

A theme in beamer can be set using the command `\usetheme{themeName}`. Here is a 27 inbuilt themes in Beamer:

default	Darmstadt	Malmoe
AnnArbor	Dresden	Marburg
Antibes	Frankfurt	Montpellier
Bergen	Goettingen	PaloAlto
Berkeley	Hannover	Pittsburgh
Berlin	Ilmenau	Rochester
Boadilla	JuanLesPins	Singapore
CambridgeUS	Luebeck	Szeged
Copenhagen	Madrid	Warsaw

It should be noted that these themes apply changes to the global structure of the presentation.

Minimal working example

The following code is used to generate the Beamer presentation for different themes. It includes a title page, an outline frame, lists and blocks frames. You can modify the used theme and HIT Compile button, or just check the obtained presentations below!

```
1 |
2 % Inbuilt themes in beamer
3 \documentclass{beamer}
4
5 % Theme choice:
6 \usetheme{CambridgeUS}
7
8 % Title page details:
9 \title{Beamer Inbuilt Themes (CambridgeUS)}
10 \author{latex-beamer.com}
11 \date{\today}
12 \logo{\large \LaTeX{}}
13
14
15 \begin{document}
16
17 % Title page frame
18 \begin{frame}
19   \titlepage
20 \end{frame}
21
22 % Remove logo from the next slides
23 \logo{}
24
25
26 % Outline frame
27 \begin{frame}{Outline}
28   \tableofcontents
29 \end{frame}
30
31
32 % Lists frame
33 \section{Lists in Beamer}
34 \begin{frame}{Lists in Beamer}
35
36   This is an unordered list:
37   \begin{itemize}
38     \item Item 1
39     \item Item 2
40     \item Item 3
41   \end{itemize}
42
43   and this is an ordered list:
44   \begin{enumerate}
45     \item Item 1
46     \item Item 2
47     \item Item 3
48   \end{enumerate}
49
50 \end{frame}
51
52
53 % Blocks frame
54 \section{Blocks in Beamer}
```

```

55 \begin{frame}{Blocks in Beamer}
56   \begin{block}{Standard Block}
57     This is a standard block.
58   \end{block}
59   \begin{alertblock}{Alert Message}
60     This block presents alert message.
61   \end{alertblock}
62   \begin{exampleblock}{An example of typesetting tool}
63     Example: MS Word, \LaTeX{}
64   \end{exampleblock}
65 \end{frame}
66
67 \end{document}

```

[Open in Overleaf](#)
[Compile!](#)

1. Default theme

To use the default theme `\usetheme {default}` command should be added to the preamble. However, if no theme is specified then beamer will apply the default theme to all the frames.

Default frame is preferred when the user wants to customize the frames according to his/her purpose. It is easy to make local changes (color and font) in local structure in the default theme. Compiling the above code with `default` theme, we get the following:
