Vethathiri Maharishi questioned his purpose of life at a very young age when life was a whirlpool of difficulties, when severe poverty struck his family, Vethathiri instead of being a victim of the cycle of life, chose to question his existence and his reason for birth.

What is God?, What is life?, Why there is poverty in world?

The quest of answers for these questions led the transformation in him from Vethathiri to Maharishi.

Each of us have a specific purpose of birth. For some of us, this secret is revealed early on by the Divine, while others must go through the pace that life has planned for. Clarity and Consciousness of life, its twists and turns, lows and highs, joy and despair are all bundled up in a lifetime. Making an attempt to understand the nuances and various layers of life is the first step in the journey of the spirituality.

Guru Vethathiri Maharishi has helped mankind by making this journey of life's learning, of elevating consciousness, simple and accessible to humanity.

We are the children of this Prodigious Guru who subjected himself to deep research of Self, Nature and Society. Only when he was convinced about the teachings of the Universe, he started imparting this valuable knowledge treasure to the World.

As his children, we are entrusted with a massive and significant responsibility of spreading his knowledge and wisdom to everyone that we have received from the Master. **To light up the whole**

world with the Vethathirium light.

As a part of the SKY Family, we are the Messengers of the Messages of Maharishi Vethathiri. We have basked and experienced the joy of being his discipline, of connecting to his consciousness and being protected by his Divine Bliss and Energy. We are now dutybound to share this with others and encourage our own SKY Family to be the flame of change.

This is a **clarion call for all the Messengers** to support us in spreading Vethathirium, to every corner of the World, to **flood the Web with our Guru's Teachings**, to make available the wisdom of our Maharishi at a click.

We are the Ambassadors who need to ignite the candle of the World Peace in every heart and make it the purpose of every soul. **Join us in this mission, be our Messenger of Peace.**

Do you want to be free from PAIN? Swamiji expounded the theory of pain with simple, logical and practical analogies.

Every living being, every plant, even every inanimate object is working in a natural rhythm. Whenever this natural rhythm is disturbed in a living being, the reflection is in the form of pain, misery and problems. When one is in pain, the first step towards relieving self from it would be to understand the root cause, i.e.; was it a trigger of imbalance due to mental or physical one? When acceptance of the pain dawns, the ways and means to heal the body and mind will reveal itself, and empower us to prevent from its recurrence.

Knowledge is stagnated or diverted in its journey towards perfection with the imbalance in this rhythmic flow. The simplest way to be free from pain is to respect the natural balance and Law of Nature.

What is Law of the Nature and how should we respect this?

The Law of Nature is the unfailing law wherein every action will produce or necessitate an appropriate reaction or result. Living in harmony with the "Cause and Effect" Law of Nature will thrust us in the

path of self-realisation, unravelling the truths of the Universe and Divine presence within and outside us.

The two fold principle clearly explains that our action should not cause pain or misery to self or others, be it in the present or in the future, to the body or mind. Regulation of activities, being in tune with the body and mind and understanding the intricacies of nature's functioning will empower us to handle the outcome of pain and more importantly prevent it.

Educating self with the above knowledge helps self, and also those who come in contact with us. They would acquire this characteristic gradually and soon a harmony among living beings will prevail in the symphonies of nature.

The benefits of Nature are all over the Universe but the secrets of Nature are only within your own Mind. Go in and in to get more and more.

A rendezvous with Vethathiri Maharishi, that left Sukhi Sivam Stunned!

This incident took place around the year 2004.

*Some close aides of **Shri Sukhi Sivam*** (Scholar of Tamil language) suggested him that he should meet Vethathiri Maharishi, the spiritual leader, a saint and the man who was transforming society at the grassroots level. **Sukhi Sivam**, who was always keen on meeting spiritual personalities, agreed to visit Swamiji in his abode at Aliyar.*

*During the ride to the Ashram, he was briefed by his team that Maharishi was not formally educated and had completed formal schooling up to 3rd standard. Having this perception, **Sukhi Sivam** stepped into the spectacular nature-blessed Ashram at Aliyar.*

*Swamiji was residing in the first floor of the Dhyana Mandapam (Temple of Meditation). While entering in the Dhyana Mandapam, **Sukhi Sivam** saw five poems of Vethathiri Maharishi embossed on its walls. He was left stunned with the depth of meaning of the poems, amazed at the words woven together to form a perfect symphony. He could experience an ecstasy on reading those poems.*

*The sublimity of the verse and the message emanating from the poems were so profound that **Sukhi Sivam** was unable to fathom that these were written by a 3rd standard pass out. When he questioned his host about this, the host politely asked him to check with Maharishi, as he was unaware of the answer.*

*Immediately after exchanging pleasantries with Swamiji, **Sukhi Sivam**, no longer could curb his curiosity and- , asked Swamiji:*

"They told me you are not formally educated and have completed only 3rd class. How can you write such poems of beauty on par with the great scriptures?"

Maharishi gave his divine enigmatic smile and told him that for that also there is a poem.

"A person who has the habit of writing poems and has a natural flair for poetry, if his consciousness is elevated, then there is a natural flow of thoughts that mirror the longings of the society. The thoughts also would provide solutions to all those grave problems with wisdom for leading a meaningful life".

The poem further goes on to elucidate the reason for it.

"Just like water at higher level automatically flows down, similarly when the consciousness of the individual will reach a very subtle level of frequency and all the thoughts of great masters will culminate and flow into the poet. The person writing is only a medium resonating the thoughts of the great masters".

"It's the poet's hand on the paper, but the words and thoughts are the outcome of the sublime state of linking one to the Universe and beyond. In this profound state, Nature automatically reveals its secrets and blossoms as words in the poems."

On hearing this fascinating truth, Sukhi Shivam was overwhelmed with respect for Maharishi and he folded his hands with utmost reverence.

We have heard that great scriptures like Vedas, were "Apaurusheyam", not written by Humans!

The secrets in these writings flow through the consciousness of the writer when it merges with the Total consciousness. The hand of the writer was only a medium, it is the Total Consciousness that flows through them and brings out these unique arts and scriptures. The authors of the Scriptures are thus only a medium and not the original writers of the Scriptures.

Update from the AGM meeting

September 20-22, 2019 Aliyar

TKS SEKAR

VeWa Congratulates WCSC's New General Secretary -TKS Sekar.

WCSC Board Meeting for 2019 was held in the Vethathirian land

of Aliyar during 21st September to 23rd September. It was chaired by our benevolent and stalwart leader, the President Shri SKM Maeilanandhan and attended by heads of various Directorates, the leaders of the various Trusts and Centres.

Everyone present in the meeting has been instrumental in spreading the teachings of Shri Vethathiri Maharishi and carrying forward WCSC's vision and goal. Brainstorming on challenges and opportunities, idea generation, execution methodologies were some of the key aspects discussed in the meeting.

SKY Family members who sow the seeds of Vethathirium in every nook and corner of every state of India attended the Board meeting.

Some of the key decisions and discussions are stated below:

1. Synergy, Communications and Cooperation between Directorate and Centres/Coordinators:-

The President emphasised about his vision is that the WCSC should make such provisions that

people of any Country/state should be able to learn the principles and Practices enunciated by Maharishi as happening in Tamil Nadu if we have to reach the goal of World Peace within a stipulated time. He assured all his support for this through the Directorate of Other States and Foreign Countries (OSFC).

It was acknowledged that the communication between Directorates and Coordinators should be open, two way and proactive, and the Coordinators should constantly appraise their respective Directorates and seek their guidance and support. The efforts of the Directorates too should be propagated, and Centres should garner support and bring the entire other states and foreign countries efforts / updates in single platform to further the Vision of WCSC towards one World Community.

(Please see the end of this update to know the efforts taken by the Directorate to fulfil the above goal of WCSC)

2. Changes in Charges – Due to the increase in general price levels, there have been a revision in the rates of dormitory, canteen etc.

3. Printing of Research Papers in Book Formats – Several Research projects and successes were discussed in the meeting. The Scientific validation to the teachings of Vethathiri Maharishi, reiterated the wisdom of his teachings, and the

VeWa Base (Events of Ashram)

President wanted the significant research to be printed and circulated to the Centres.

4. **Quality of teachers** - One of the key issues that was emphasised was to have well equipped teachers in the Centres. Senior Professors, Professors should support and mentor the next generation of teachers. Courses should also focus on training quality teachers.

The three days meeting in the Guru's energy field, motivated the Trustees, Coordinators of the Centres to serve as a combined, powerful team with the focal mission of spreading Vethathirium around the world.

Guidelines for Coordinators of Other States and Foreign Countries.

1. Regular and constant two way communication between the States and the Directorate of OSFC.

We all are messengers working for Swami Ji.

To enable open and friendly communication, every State / Trust is to provide a short and succinct summary (even a few words or couple of sentences) to the Directorate about its activities every 15 days.

WhatsApp can be a tool for better communication. Whatsapp groups have been and are being created for the benefit of all. All the members of the groups are

encouraged to be active participants and communicate with one another.

2. State coordinators are representatives of WCSC and also important link. They are expected to be in regular contact with OSFC Directorate and other WCSC bodies, apart from the Meditation Centres in their respective States.

3. VeWa-eMagazine to be the platform to connect the different states and countries. All centres to share past, current and future activities to the Directorate.

4. Efforts to be made by every single member to spread the messages of Swamiji like VeWa International, Vetha Pearls etc; in various digital and non-digital platforms to spread the wisdom filled verses and teachings of Guru in multiple languages to SKY and Non SKY Members.

The President repeatedly asserted that apart from Directorate's physical visits to other States, using technology to improve SKY in Other States is the need of the hour. Let us put today's technology to greater use.
