

CYENETIC SOLUTIONS

SECURITY IN MOTION

CYENETIC SOLUTIONS LTD.

WE DELIVER SECURITY IN MOTION

We move proactively to outpace modern threats. We translate complex risks into clear, actionable strategies, transforming your security posture from a static barrier into a resilient, adaptive force.

SERVING: FINANCE • HEALTHCARE • GOVERNMENT

OUR KINETIC SERVICES

WEB APP PENETRATION TESTING

Identify and exploit security vulnerabilities (OWASP Top 10) in your web applications before attackers can.

MOBILE APP SECURITY

Proactively uncover and validate security weaknesses in Android and iOS apps to prevent data breaches.

API PENETRATION TESTING

Secure critical data pathways by identifying vulnerabilities in your APIs before they can be leveraged in an attack.

SOURCE CODE AUDIT

Identify and eliminate security vulnerabilities at the source—your code—to reduce long-term risk and cost.

MALWARE INVESTIGATION

Rapidly identify, contain, and eradicate malicious code from compromised WordPress sites and restore integrity.

SECURITY CONSULTATION

Transform cybersecurity into a business advantage. Strategic roadmaps, compliance (SOC 2), and incident preparedness.

THE KINETIC DIFFERENCE

Business-Focused Risk

We translate technical findings into risk intelligence, prioritizing threats based on actual business impact.

Dedicated 24/7 Partnership

We are a dedicated team offering 24/7 support to ensure your security posture is resilient and responsive.

Proactive Offensive Experts

Our "Kinetic" methodology employs manual simulations of real-world attacks that automated tools often miss.

Clear Remediation Guidance

You receive a clear roadmap with expert guidance from discovery through to full remediation.
