Template: Trust Commitments Page

💡 **Tip for community use –** Keep this page short and approachable - it's a public pledge, not a detailed policy. Add your LucidSeal badge (if you've earned one) as a visible trust signal, and Link to your full Trust Page for more detail (privacy notices, escalation pathway, status page, etc.).

Where Digital Trust Begins

Trust is earned through action, not just words. This page makes our commitments visible at a glance.

Our Commitments

Privacy by Default

We keep data collection minimal and protect what we hold.

Transparency in Action

We explain our practices in human language and welcome questions.

Secure Foundations

We treat security as everyday practice, not a one-off task.

Community First

We make it easy for stakeholders to raise concerns and shape improvements.

Our Badge of Trust

[Insert LucidSeal badge here]

Displaying the LucidSeal badge shows that we've taken real steps to embed digital trust into our organisation.
