

1D3X

INDEX INFRASTRUCTURE

Local Commodity Indices. Global Market Infrastructure.

× —————

1D3X is building a **global network** of local commodity indices for agricultural markets.

We create **transparent, methodology-driven** benchmarks for the most relevant agro-commodity positions in each country or regional market.

From local market signals to structured **index infrastructure**.

DATA. TRANSPARENCY. BENCHMARKS.
FOR COMMODITY MARKETS.

Why Local Commodity Indices Matter

Commodity markets are global, but prices are local.

Each country has its own:

export routes

logistics constraints

basis structure

liquidity windows

local buyers and sellers

market habits and data gaps

Without local indices, the market remains **fragmented** and difficult to read.

1D3X helps turn local market reality into **clear, usable benchmarks.**

Where We **Start**

Ukraine is our first active market.

We have already launched index infrastructure with:

UGA Index

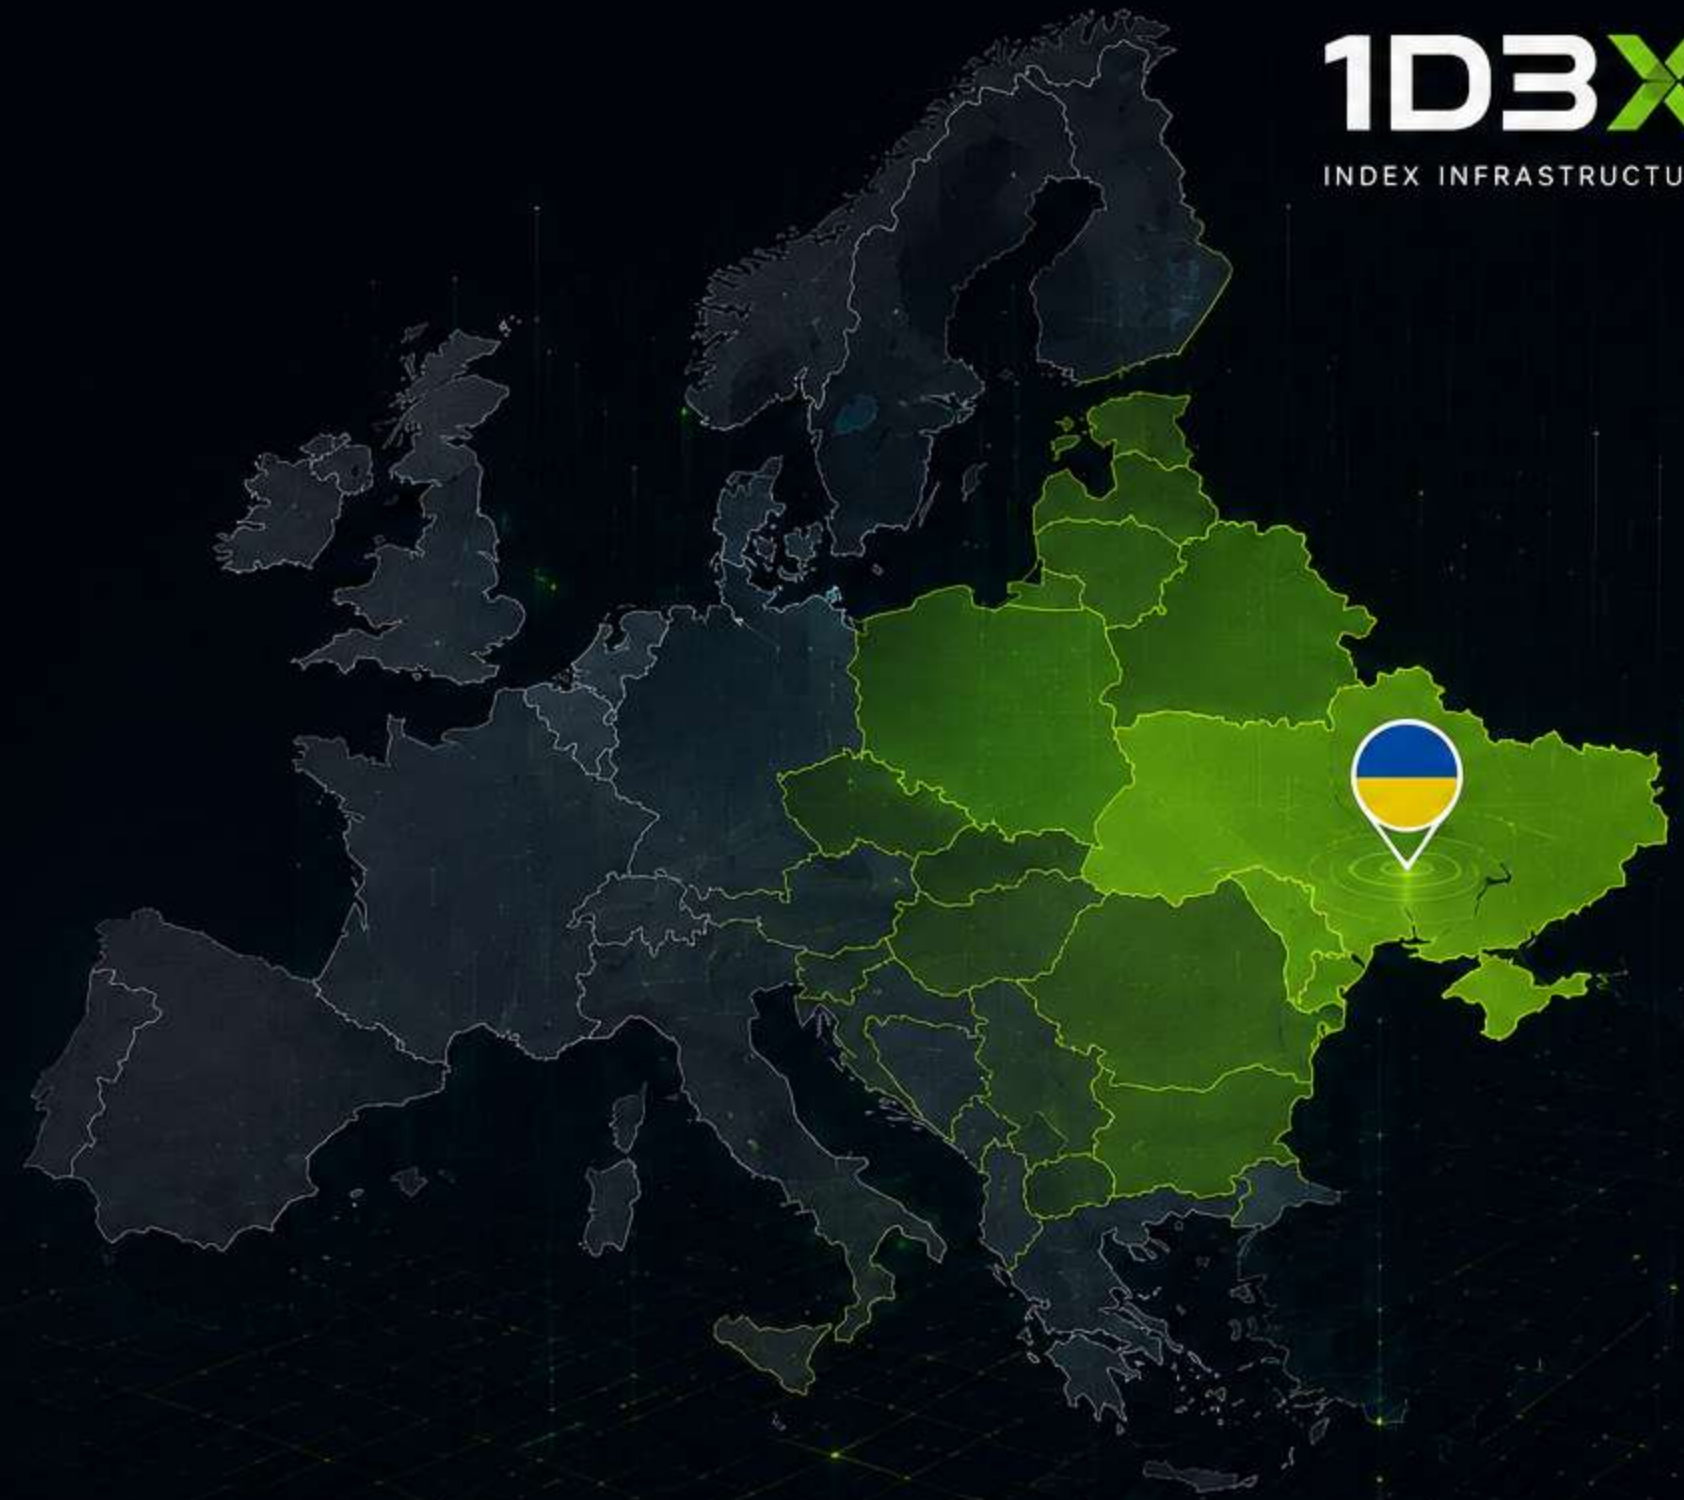

a public Ukrainian agricultural export price index developed for the Ukrainian Grain Association.

Spike Spot Index

a spot index and analytics project focused on Ukrainian export and processing bases.

We are now preparing to expand the model into selected **European markets**.

The 1D3X Partnership Model

We invite institutional and industry partners to join the **1D3X** network.

IDEAL PARTNERS INCLUDE:

commodity brokers

consultants
and educators

industry associations

local data and
media partners

market experts

trading communities

The partner brings **market access**,
trust and **local expertise**.

1D3X

1D3X provides
the infrastructure.

What 1D3X Provides

X

We provide the partner with a **complete local index infrastructure**:

Branded index website

Analytics structure

API access and data delivery

Methodology framework

Blog and media layer

Media support and visibility

Respondent submission mechanics

PDF and API-ready data architecture

Technical support and product development

Admin tools for data review

Everything is adapted to the partner, **local market and respondent workflow.**

What the **Partner** Does

The local partner leads **market activation**.

- Attract **leading market respondents**

- **Build trust** with local companies

- Review and **validate** submitted data

- Act as local index **administrator**

- Support **media** and **communication**

- Publish **expert content** and blog

- Drive first **market traffic**

No financial
investment
required.

The key asset is
local authority
and industry
communication.

You lead locally.
We power
the infrastructure.

Your market knowledge.
Our infrastructure.
Stronger together.

How Monetization Works

After enough data history and user traffic are built, usually within **6–18 months**, monetization can begin.

REVENUE STREAMS MAY INCLUDE:

Paid analytics subscriptions

Access to premium market analytics and advanced dashboards

API access

Data and analytics API for platforms, systems and market services

Premium market dashboards

Advanced visualizations and custom market intelligence

Sponsored industry posts

Promoted content and featured industry insights

Banner placements

Targeted visibility to the right industry audience

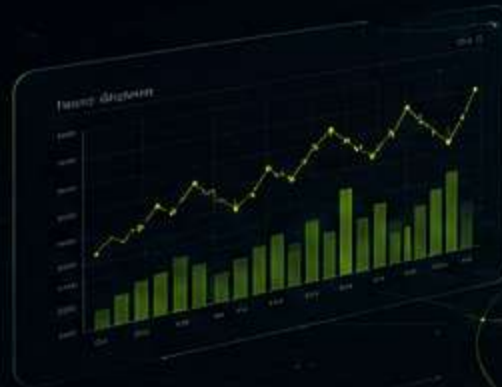

Partner content and reports

Co-branded reports and market insight partnerships

Typically, monetization starts within **6–18 months** after launch.

The long-term goal is clear:

build local benchmark infrastructure, create trusted market data, and give partners a leading role in the future of commodity analytics.

Let's Build the Future of **Commodity Analytics**

1D3X is building a **global network** of local commodity indices with trusted partners who lead their markets.

LOCAL EXPERTISE

You know your market. We provide the infrastructure.

GLOBAL NETWORK

Connected local indices. Comparable markets. Better decisions.

SHARED GROWTH

Transparent data. Growing users. Sustainable monetization.

MARKET LEADERSHIP

Be a benchmark builder. Strengthen your position. Shape your industry.

Together, we turn local market reality into **global market infrastructure.**

Become a **1D3X** partner. Let's build the future of commodity markets—together.
