- Taking advantage of Sketch's updated symbols:
 - All icons are now symbols. (Icon styles have been removed, so you now control the opacity of instances directly.)
 - Some additional components, such as status bars, search boxes and date/time pickers, are now symbols.
 - Symbol library includes some bonus items not on the main sheet.
- Added text styles for a more complete set, even if they're not used in the stickersheet.
- Added material design shades of gray, text colors and divider colors to the document palette.
- Chips are now more easily resizable.
- Corrected text size for desktop side drawer.
- Fixed inaccurate icon and text placement in some app bars and date/time pickers.
