3. Use EZDFP Widget :

- a. Select **EZDFP Widget** from **Appearance > Widgets**
- b. Enter **Widget title** and select **Adunit** from the dropdown list. These ad units were pre-configured from your EZDFP account. If you have not configured ad units in your EZDFP account then you need to configure them there first.

4. Finish and test. It may take up to 72 hours for Google to start delivering ads.
