

Contract

Between Shabti Kaplan from Kaplan Web Development

And

Abraham Jones

Summary:

I'll always do my best to fulfil your needs and meet your expectations, but it's important to have things written down so that we both know what's what, who should do what and when, and what will happen if something goes wrong. In this contract you won't find any complicated legal terms or long passages of unreadable text. I have no desire to trick you into signing something that you might later regret. What I do want is what's best for both parties, now and in the future.

So in short:

You, ("you"), Abraham Jones, are hiring me Shabti Kaplan ("me") , owner and founder of Kaplan Web Development to:

- Create a specially customized form via the ACF Frontend plugin

For the estimated total price of \$200 as outlined in our previous correspondence.

Specifically you want me to create the form based on your mockup where one select field filters the next based on what the user chooses.

What do both parties agree to?

You: you have the authority to enter into this contract on behalf of yourself, your company or your organisation.

Me: I have the experience and ability to do everything I've agreed with you and I'll do it all in a professional and timely manner. I'll endeavour to have this ready by the 18th of June, but if things fall through, it might only be ready by the 25th.

Browser testing

I test my work in the current version of Google Chrome and Mozilla Firefox. I do not test other browsers, including internet explorer. I also won't test in older versions of Chrome

Contract

and Firefox, unless we agreed to this separately. If you need an enhanced design for an older browser, I can provide a separate estimate for that.

Mobile browser testing

Mobile browser testing Testing using popular smaller screen devices is essential in ensuring that a person's experience of a design is appropriate to the capabilities of the device they're using. I test my designs in Google Chrome Android.

I won't test in Blackberry, Opera Mini/Mobile, specific Android devices, Windows or other mobile browsers unless we agreed separately. If you need me to test using these, I can provide a separate estimate for that.

Technical support

I will provide support for this feature if there are any issues with the filters. However, if you have any User Experience issues that are related to the filters, I will gladly address it as an ACF Frontend support ticket, but not under the terms of this contract.

Intellectual property rights

I wish to reserve the right to use this work as a free or pro feature in a future update of the ACF Frontend plugin or any other plugin that I develop.

This contract stays in place and need not be renewed. If for some reason one part of this contract becomes invalid or unenforceable, the remaining parts of it remain in place.
